CATALOGUE NOTES

- This catalogue contains 329 product entries with 332 embedded source photos across six product sheets: Statue (49), Buddha (100), Wall Panel (10), Water Fountain (21), Vase (91), Guci Pot GRC (58).
- Product rows without an associated source photo were excluded (43 entries). The Color Option Statue reference sheet is not treated as a product list.
- Rows sharing one product code and one source photo with multiple descriptions are treated as one package. Separate component prices are added only where the source lists a price for each component; otherwise the source-listed package price is retained.
- Rows sharing one product code with multiple source photos are consolidated into one catalogue entry; where prices differ by listed option, the individual prices remain visible rather than being totalled.
- Where a grouped code contains different listed prices, prices are shown against the relevant option/component rather than combining them into an unverified package total.
- Material is taken from the source description, material field or sheet label. Where the source does not identify material, it is marked “Not specified”.
- Potential duplicate codes across different source sheets were kept separately to preserve the source data: AB-3-051 appears in Statue and Vase; AB-3-200 appears in Buddha and Guci Pot GRC. Please verify these codes before issuing quotations.
- Product photos are fitted within their frames using their original aspect ratios; no source photo is intentionally cropped. Listed prices are carried over from the Excel source and have not been marked up.
