PRICE 648.000

CATALOGUE NOTES

- This catalogue contains 86 grouped product codes and 113 embedded source photos.
- Repeated rows carrying the same product code have been consolidated into one catalogue entry. Descriptions/colour options and all associated source photos are retained together.
- Where a code has different price values across its listed options, each option price is shown beside its description; no combined package total has been invented.
- Material and packing material are shown as recorded in the source workbook. “Teracotta” follows the spelling in the source material field.
- The source workbook labels the price column as “Price” but does not expressly state a currency. Figures are therefore shown as listed, without adding a currency symbol.
- Product photos are fitted within their frames using their original aspect ratios; no source photo is intentionally cropped. Prices are carried over from the Excel source and have not been marked up.
